CAREER OBJECTIVE

Pre-final year engineering student specializing in Information Technology, with a strong foundation in Web Development, React.js, and Next.js. Seeking an entry-level position to apply technical knowledge, problem-solving skills, and continuous learning in a growth-oriented organization.

EDUCATION

PANIMALAR ENGINEERING COLLEGE **2023 - 2027**
B.Tech Information Technology
CGPA : 8.09

MAHARISHI VIDYA MANDIR **2022 - 2023**
Higher Secondary Schooling
Percentage : 81%

PROJECTS

Hanaso! – User Chat Room Apllication | GITHUB

Tech Stack: HTML5, CSS, Javascript, Node.js, Socket.io, Git, GitHub.

- Developed a real-time chat application enabling low-latency, bidirectional communication using Socket.io.
- Implemented room-based messaging architecture, allowing multiple users to communicate within isolated chat spaces.
- Designed a responsive and user-friendly UI using HTML, CSS, and JavaScript.
- Currently enhancing the platform (v2) with advanced features and scalability improvements.

FRAEMI VISION – Multimedia Agency Official Website | GITHUB

Tech Stack: Next.js, TypeScript, Tailwind CSS, Framer Motion, React.

- Led a team of 3 developers as Team Lead, Design Lead, and Client Manager, overseeing end-to-end project execution.
- Managed direct client communication, handling requirement changes and delivering iterative updates efficiently.
- Designed and implemented the entire UI/UX architecture, improving user engagement through modern design principles.

ChargeXPoint – Electric Vehicle Reacher Bunk Slot Booking Website | LIVE LINK

Tech Stack: React.js, TypeScript, Tailwind CSS, Supabase, Lovable.

- Conceptualized and developed a platform to solve EV charging accessibility and queue management issues.
- Built a system enabling users to locate nearby charging stations and pre-book slots, reducing wait times
- Eliminated brand-restricted access limitations seen in existing solutions by creating a platform-agnostic system
- Designed a dual-role system:
  - **EV Users:** Discover stations and reserve charging slots
  - **Station Owners:** Register stations and manage slot availability

CERTIFICATION

- **Generative AI – Oracle**
- **AWS Cloud Practitioner – AWS Training and Certification**
- **Deloitte – Technology Job Simulation**

SKILLS

- **Programming Language :** C++, Python, Java, JavaScript, TypeScript.
- **Frontend :** HTML5, CSS3, Tailwind CSS, React.js, Node.js, UI/UX Design Principles.
- **Backend :** Node,js, Express.js, Socket.io, Supabase, REST API.
- **Tools :** Git/Github, VS Code, Vercel, Lovable.

LANGUAGES KNOWN

- **TAMIL**
- **ENGLISH**
- **JAPANESE – N5 LEVEL**
